

### **Matriflexo continues to invest in Degraf S.p.A. machines**

Ecuador, with a population of 15 million people, has quite an important flexo business that produces corrugated cardboard for bananas, fruit in general and flowers. Most packaging companies in Ecuador are located around the three largest “flexo cities” of Ecuador; Guayaquil, Quito and Cuenca.

Matriflexo S.A. is one of the leading trade shops in Ecuador, and also one of the most representative customers for Degraf S.p.A. in South America.

Mr. Roberto Cordero Clavijo, Managing Director at Matriflexo S.A.: “We have a great success in performing our production through Degraf equipment. To be able to keep the same quality in our future performance, we continue to invest in Degraf products, and in August we will install the Concept 305 DW from Degraf.”

The Concept 305 DW from Degraf will be installed at Matriflexo S.A in August 2011.

### **MATRIFLEXO S.A. has currently 5 Degraf machines installed;**

*Combi FIII Washer from Flint (Degraf), Combi FIII Exposures from Flint (Degraf), 1000 ECLF from DuPont (Degraf).*

*Along with: DuPont Cyrel FAST 1000TD, CDI Spark 4835 HD from Esko Artwork and LUX system from Mac Dermid*
