June 2010

Glunz & Jensen now also takes in the South American Punch/Bend market

Last month Glunz & Jensen booked three significant punch/bend orders in Malaysia. Since Glunz & Jensen won the world's biggest newspaper order in Singapore in January 2010, the company has succeeded in continuing a trail of significant worldwide orders at the largest printers in the graphic industry.

Glunz & Jensen has now set its strategy for taking in the BRIC countries – Brazil, Russia, India and China, which are now ready for total pre-press solutions, including processing and punch/bending equipment along with intelligent automation systems.

The company opens up its strategy with significant sales to La Voz del Interior, the largest daily newspaper in Argentina, who continued their relationship with Glunz & Jensen's Punch Bend division by tapping them for two new ProVision Alliance Punch/Bender's with two new entry conveyors and two new plate stackers to expand their platemaking production.

Glunz & Jensen was able to provide a solution not only for the platemaking equipment, but also press registration lockups for both presses.

Keld Thorsen, CEO of Glunz & Jensen, says: "During the past year we have worked hard to develop solutions that cover the **total** pre-press need of every printer in the market. There is no doubt that our recent track records show that Glunz & Jensen is the strongest supplier in the pre-press business today, technologically as well as economically. "

"We are rapidly gaining market shares around the globe, proving we have the know-how and production machinery which brings us ahead of our competitors".

La Voz Del Interior: is the largest daily newspaper in Argentina. It has served Cordoba and Argentina for 106 years under the same name. It publishes over 102,000 newspapers on Sunday, with an average of 3.6 readers per newspaper. La Voz del Interior are in the process of including an extra tower to their Goss Headliner Offset Press as well as adding a Goss Metrocolor press to their facility. La Voz del Interior will run web widths of both 50 inch (1270mm) and 60 inch (1524mm). - The ProVision Alliance will punch and bend plates to fit their expanding press room.

About Glunz & Jensen

Glunz & Jensen develops, manufactures and markets integrated and innovative solutions for the prepress industry.

Glunz & Jensen's products and solutions cover almost all equipment used in the prepress process in modern printing houses. The largest product area is CtP plate processors, but Glunz & Jensen also focuses on product areas including punch & bend equipment, conveyors and stackers as well as software for monitoring and managing the complete prepress processes. The latest addition is inkjet technologies in form of iCtP plate setters.

Glunz & Jensen has achieved a leading position and a high market share within its core areas, and Glunz & Jensen's products are known for setting the technological standard on the global market.

Glunz & Jensen markets its products through an extensive network of distributors and dealers, and a large part of sales also takes place through OEM customers which include Agfa, Fujifilm, Heidelberg and Kodak. Glunz & Jensen enjoys close partnerships with several of its OEM customers – partnerships which also include developing new and innovative solutions for the prepress industry.

At the end of 2009, Glunz & Jensen had 230 employees. Of these, 90 were employed in Denmark, while the remaining employees worked at subsidiaries in Slovakia and the USA.

Glunz & Jensen A/S is listed on the NASDAQ OMX Copenhagen A/S.
